

LIBERATOR 2001R

... better by design ...

Ideal Crane LLC is committed to designing and manufacturing the best electric hydraulic crane value in the industry. Our cranes are innovatively designed to perform to a higher standard of durability and reliability, and to provide the maximum duty cycle possible in an electric crane. For nearly 50 years we've backed that commitment with our limited lifetime structural warranty and factory direct technical support. You can be assured that your new Ideal Liberator crane will provide many years of dependable service.

**Also available in tall, fold-down version
(See Liberator 2000R on back)**

**Designed
to a
Higher Standard**

- ◆ Heavy duty industrial grade contactors. No automotive grade solenoids used.
- ◆ Power rotation utilizes robust, all steel turntable bearing with self locking worm gear final drive.
- ◆ Boom positions at 0°, 15°, 35° and 55° for flexibility needed to adapt to any job.
- ◆ Industrial planetary hoist provides fast line speeds, power efficiency and rugged dependability.
